PROFILE

Detail-oriented and versatile professional with hands-on experience in full-stack mobile and web development using ReactJS, React Native, and Expo, coupled with a strong background in sales and inventory management. Proven ability to build user-centric applications, manage customer relationships, and lead teams effectively. Adept at blending technical expertise with operational insight to deliver high-impact results in both tech and retail environments.

WORK EXPERIENCE

VisionAI Private LTD.

06/2022 - 05/2024

Full Stack Developer

- Developed and maintained scalable mobile and web applications using ReactJS, React Native, and Expo, resulting in 30% faster deployment cycles.
- Designed a responsive web platform for psychotherapists that automated task workflows and internal communication, reducing manual admin tasks by 40%.
- Led front-end development for a cross-platform app providing daily exercise and survey features to elderly users, integrated real-time chat and multi-role login for family and therapists.

Doctor App, Personal Project

Mar 2023- June 2023

Front-end Developer

- Implemented user-friendly interface for browsing doctor profiles, checking availability, and booking appointments.
- Improved accessibility by allowing doctors to update schedules and manage appointments.
